

We can strengthen health care – without raising your taxes – if we stop corporate give-aways, turn the page on wasteful spending like \$30-billion fighter jets, and focus on what really matters: giving every Canadian the tools to succeed.

Your Family. Your Future. Your Canada. *The Liberal plan to strengthen health care*

A Liberal government will help Canadians who care for elderly or seriously ill loved ones to manage the financial pressures of caregiving with a new **Family Care Plan**:

- A new six-month **Family Care Employment Insurance Benefit**, similar to EI parental leave, to let caregivers take six months off work to care for gravely ill family members at home; and
- A new **Family Care Tax Benefit** up to \$1,350 annually, modeled on the Child Tax Benefit, to help low- and middle-income family caregivers manage costs.

You can trust a Liberal government to safeguard high-quality, universally accessible public health care:

- Better coverage of **prescription drugs** and fewer gaps in health care service quality;
- A new **Canadian Brain Health Strategy** to accelerate research on Alzheimer's disease and dementia and help patients and their families cope;
- Canada's first **National Food Policy** to put more healthy Canadian food on Canadian tables and a new **Health Promotion Strategy** to promote sport and active living.
