

\$30 billion for stealth fighter planes

\$10 to \$13 billion Canada-wide for US-style mega-prisons

\$1 billion for the G8 and G20 summits

Your Family. Your Future. Your Canada. *The Liberal plan to cut Conservative waste*

A Liberal government will cut Conservative wasteful spending to strengthen families and pay down the Conservatives' record deficit:

- **Restore tax rates for large corporations to 2010 levels** – Canadian families need a break more than our largest corporations do. Canada already had the second lowest corporate tax rates in the G7 and 25% lower than the U.S. in 2010;
- **Make better choices** by helping families instead of spending billions on untended stealth fighters and U.S.-style mega-prisons;
- **Cut wasteful spending that has ballooned under the Harper Conservatives**, like taxpayer-funded advertising, excessive spending on consultants and the size the Prime Minister's Office;
- **Restore federal spending discipline** by restoring a fiscal prudence buffer and identifying the source of every dollar needed to pay for new initiatives; and
- **Review all program spending** to implement smart, sustainable savings.

We can help strengthen families – without raising your taxes – if we stop corporate give-aways, turn the page on wasteful spending like \$30-billion fighter jets, and focus on what really matters: giving every Canadian the tools to succeed.
